

Why we love World Maths...

- ✓ because we can play against other countries
- ✓ because you earn credit and get to buy stuff
- ✓ because it's fun and you can buy accessories
- ✓ because it helps you with your maths
- ✓ because you can play warm-ups and then you can go and play games
- ✓ because you can make your "person" look cool
- ✓ because you get bonus levels
- ✓ because the tasks make your brain think
- ✓ because it helps you with numbers
- ✓ because you play people from all over the world
- ✓ because you get credits and can choose how to spend them
- ✓ because I just do!
- ✓ because we love it!
